The HQ Advantage

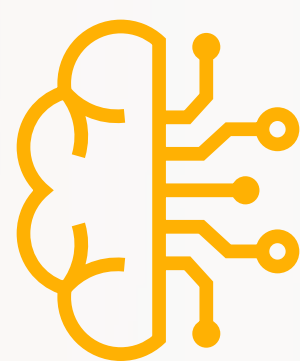

A Single Source of Truth

Unify every data point from every system into one real-time, objective command center.

Intelligent Automation

Eliminate manual reporting and repetitive tasks to free your teams for high-value work.

Purpose-Built for Senior Care

Move beyond generic tools with a platform engineered to solve the unique complexities of your industry.

Radical Customization

Configure a solution that fits your exact needs and evolves with you as your operations change.

HQ A Pre-Built Business Intelligence Solution for the Senior Living and Care Industry

Senior care leaders spend **hundreds of hours** chasing data across disconnected systems, making critical decisions with a fragmented view.

HQ by CareWork ends this cycle by **unifying all your data into a single source of truth**.

Senior care leaders spend **hundreds of hours** It's the pre-built, fully managed BI solution for the senior care industry, designed to **give you total visibility** so you can focus on growing your business.

How It Works

1. Unify Your Data.

Connect every system—EHR, financial, HR, and more—into a single, objective source of truth.

2. Automate Your Work.

Eliminate the endless cycle of manual reporting and repetitive tasks, freeing your teams for high-value work.

3. Unlock Proactive Insights

Turn raw data into forward-looking intelligence to spot trends, mitigate risks, and forecast outcomes.

The Smarter Choice: HQ vs. DIY

Go Live in Weeks, Not Years

Launch in as little as 6 weeks, compared to the 18+ month timeline of a typical in-house build.

Save Over \$250,000

Avoid the six-figure upfront cost and unpredictable maintenance fees of a custom platform.

Stop
Chasing Data.
Start
Driving Decisions.

Increased Visibility

Who We Help

Services By Business Area:

Finance
Clinical Operations
HR & Labor
Sales & Marketing
Occupancy
CMS

By Care Setting:

Assisted Living
Independent Living
Memory Care
Skilled Nursing
CCRCs
Adult Day

HQ has been a godsend. Collecting Clinical Quality Measures used to take a day and a half, now with CareWork, it takes only five minutes for all facilities!

This allows us to spend the rest of the time analyzing data. We can track month-over-month trends and develop decision and action plans based on these trends.

Overall, we now have more time to focus, stay on top of location performance, and provide clear directions to the locations.

— Vicki Sherrard,
Sr. Vice President, Clinical Services
